

3Q 2018

3Q 2018

IN 3Q18 URBI CONSOLIDATED THE OPERATION OF ITS HOUSING BUSINESS LINE, WHICH GENERATED 98% OF ITS INCOME

Mexicali, B.C., October 25, 2018.- Urbi, Desarrollos Urbanos, S.A.B. de C.V. (BMV: URBI *) ("Urbi" or the "Company") announced today its results for the third quarter of 2018 (3Q18). All figures presented in this report are expressed in nominal Mexican pesos unless another unit of measure or currency is indicated and could present rounding adjustments.

Key information:

- In 3Q18, 98.0% of revenues came from the sale of homes business line (Linea A), which represented 82.6% of total revenues in the nine-month period (9M18).
- We exercised our first non-banking line of credit granted by a private creditor and recently agreed to 3 new lines of funding under the same conditions.
- We demonstrate our execution capacity, fulfilling our financial obligations and honoring the commitments agreed with our clients.
- We have started the process of defining our 2019 business plan, which will focus on projects and cities that place us back on the path of growth and value generation to our shareholders. We anticipate having this plan authorized by our Board of Directors in December.

3Q 2018

Notes from the CEO

During this quarter, our core business line (Linea A) increased in proportion to total revenues; we continued to exercise our authorized lines of credit and used our first non-banking source of funding originated by a private creditor. Additionally, we obtained the court approval for the agreement we entered into with the Consumer Protection Agency (PROFECO), closing with this a very relevant cycle and strengthening the Urbi brand.

In 9M18, Urbi accumulated total revenues of \$399.8 million from its two business lines: i) the sale of homes (Linea A) and ii) the sale of land for urban development and divestments of non-strategic assets (Linea B).

During the year we have been consolidating the operation of our core business. In 3Q18, 98.0% of our revenues came from Linea A and, in 9M18 it generated 82.6% of total revenues, compared to 60.9% in the same period of 2017. At the end of September, the average price of homes in our own projects was \$549 thousand, compared to \$552 thousand in 6M18, in line with the expected normalization in the price due to a higher contribution of the low-income segment in our revenue mix.

In regards to our financing activities, in 3Q18 we continued using our approved lines of credit and alternative sources of funding in the amount of \$27.8 million, while also fully complying with principal amortizations worth \$2.1 million and interest payments on our debt in the amount of \$4.4 million.

In that way, we used \$12.5 million of our line of credit for the conclusion of infrastructure with Banco Interacciones, accumulating \$49.4 million during the year, which have been allocated to the replacement of provisional infrastructure, benefiting 26,440 families and generating savings of \$4.7 million related to development expenses so far this year. It should be noted that the conditions of this line of credit are very flexible, that is, a principal amount of up to \$225 million maturing in December 2021, with quarterly interest payments of TIIE + 6.67% and quarterly principal amortizations of \$1,000 (one thousand pesos), with a last payment of the principal amount owed at the maturity date.

We also used \$4.3 million of our \$83 million bridge loan with Banco Inmobiliario Mexicano (BIM) for our development Villa del Prado II in Culiacan, which we plan to start commercializing in this 4Q.

Moreover, during this 3Q18 we used \$11.0 million of our \$28 million credit line granted by a private creditor for our development Villa del Real in Queretaro, which we believe will spearhead the generation of new sources of funding in market conditions, agile execution, standardized origination and project based risk allocation. As part of this effort, we recently agreed 3 new funding lines for 6 additional projects that we estimate to formalize and start to use in November.

3Q 2018

In addition to the fulfillment of our financial obligations, last August 28 we obtained a court approval for the agreement we entered into with PROFECO, which evidenced the attention we afforded to more than 300 complaining clients and allowed us to favorably resolve litigation, and a relevant pending item of our financial restructure, therefore supporting our company brand.

In spite all of the above, the pace of growth in our operations for this 2018 has been lower than initially estimated, mainly due to extended lead times for loans with financial institutions; longer than expected procedural times of sales permits, construction licenses and development authorizations in some of our projects; and lower collections and divestment of non-strategic assets than originally anticipated.

As a result, the Company has adjusted its guidance for 2018, foreseeing Linea A revenues by year end approximately 10% lower than last year, total revenues lower than 2017 by around 30%, and negative financial indicators of EBITDA, FCF and ROIC.

Due to this, we have started a process to outline our 2019 business plan in such a way that it is ambitious but realistic, focused on cities and projects with greater productivity. We expect to have this business plan authorized by our Board of Directors in December. Likewise, the Company plans to continue with its strict policy of control and care of spending, which by the end of the 9M18 has allowed it to reduce its ordinary expenses by 26% compared to the same period of 2017.

In summary, during 3Q18 we continued to fortify the operations of our core business line, launched our first alternative funding source and agreed 3 additional sources of funding in the same conditions, while at the same time, we continued demonstrating our execution capacity through the use and re-payment of our credit lines and the compliance with the commitments agreed upon with our clients. As a result to the lower than expected growth in our operations this year, our 2019 business plan is expected to be focused on projects and cities that put us back on the path of growth and value generation to our shareholders.

We trust that the conditions are given to execute this plan; Urbi has increasingly solid fundamentals, an experienced and motivated human capital, as well as a business model compatible with a socially driven housing policy.

3Q 2018

Sales

Urbi has two business lines: i) the sale of homes in Urbi and third-party projects (Linea A) and ii) the sale of land for urban development and divestments of non-strategic assets (Linea B). Total sales (Urbi system) in 9M18 were \$489.1 million, of which Linea A generated \$419.4 million from the sale of 675 homes at an average sale price of \$621 thousand. In addition, Linea B generated \$30.3 million from the sale of land for urban development and brokerage services, and \$39.3 million from the collection derived from the sale of the non-strategic subsidiaries of the Company.

This meant year-to-date revenues for the Company of \$330.1 million from its Linea A and \$69.7 million from its Linea B, totaling \$399.8 million, 26.6% lower than revenue in the same period of 2017. As mentioned above, the lower pace of growth in our operations was mainly due to the lengthening of the funding process along with longer procedural times of sales permits, construction licenses and development authorizations in some of our projects, as well as to a lower collection and divestment of non-strategic assets than initially planned.

¹ Recurring revenues shown as Net Sales in Financial Statements.

The Company has continued to strengthen the operation of its core business line with a focus on housing sales in Urbi projects. During 3Q18 the average price of homes in its own projects continued with the expected normalization, due to a greater contribution of low-income housing segment in its revenue mix. The following table shows the income of Linea A by the type of project's owner:

Other exceptional items	21,251	56,913	(62.7%)	55,229	74,311	(25.7%)
Provisions and exceptional items	35,570	161,488	(78.0%)	156,910	209,797	(25.2%)
Total - General and administrative expenses	102,022	239,968	(57.5%)	375,738	506,025	(25.7%)

In 9M18 the Company incurred in ordinary expenses of \$218.7 million, which represented a decrease of \$77.5 million (-26% YoY), mainly due to the reduction in salaries and wages, fees and costs associated with public services and maintenance to housing developments, in line with the measures aimed at the strict control and care of spending.

3Q 2018

In addition, in 9M18 the Company recognized provisions and exceptional items of \$157.0 million, mainly associated with the provision for unfinished infrastructure, the allowance for uncollectible accounts and the provision of non-recurring fees. For more details, see Note 18 to the Financial Statements.

Other income

(Amounts in thousands of Mexican pesos)

lk a	2010	2017	Change	0844.0	08417	Change
ltem	3Q18	3Q17	%	9M18	9M17	%
Other income, net	\$109,061	\$199,224	(45.3%)	\$298,673	\$406,577	(26.5%)

In 9M18, Urbi recognized non-recurring items related with the collection derived from the sale of non-strategic subsidiaries of the Company for \$39.3 million and the release and cancellation of provisions for \$209.3 million. The 9M18 shows a decrease of \$107.9 million (-26.5%), mainly due to a lower release and cancellation of provisions compared to 9M17. For more details, see Note 19 to the Financial Statements.

Earnings before Interest, Taxes, Depreciation and Amortization (EBITDA)

In 9M18, the EBITDA was negative \$104.5 million, compared to negative \$76.1 million in 9M17.

Although IFRS does not require companies to report their EBITDA, the Company has elected to provide information on its EBITDA in this report because some investors believe that comparing an entity's operating performance at different dates and against other companies of its industry is a useful analytical indicator, since it provides data on the entity's results of operations independently from its capital structure.

The Company recommends that its EBITDA should be analyzed considering its net income or loss for the year and its cash flows generated or used during the period, as reported in the Company's financial statements. It should be noted that Urbi's calculation of EBITDA may differ from how other companies calculate their EBITDA, since the items included in these calculations may differ from one entity to another.

The following table provides the calculation of the EBITDA as of September 30, 2018 and 2017:

(Amounts in thousands of Mexican pesos)

ltem	9M18	9M17
Operating income	\$32,028	\$131,093
(+) Cost of sales associated with exceptional items	\$2,564	\$8,151
(+) Capitalized interest expense transferred to cost	\$1,368	\$3,614
(+) Depreciation and amortization	\$1,284	\$1,903
(+) Provisions	\$101,681	\$178,552
(+) Non-recurring items	\$55,229	\$7,203
(-) Other income	\$298,673	\$406,577
EBITDA	(\$104,519)	(\$76,061)

Net financing income (cost)

(Amounts in thousands of Mexican pesos)

(
lh a ua	2010	2017	Change	08410	08447	Change	
ltem	3Q18	3Q17	%	9M18	9M17	%	
Interest expense	(\$4,412)	(\$5,517)	(20.0%)	(\$11,168)	(\$9,438)	18.3%	
Interest income	\$594	\$3,007	(80.2%)	\$3,281	\$8,922	(63.2%)	
Foreign exchange gain (loss)	(\$1,969)	(\$1,308)	50.5%	(\$3,976)	(\$6,790)	(41.4%)	
Net financing income (cost)	(\$5,787)	(\$3,818)	51.6%	(\$11,863)	(\$7,306)	62.4%	

In 9M18, the Company generated a net financing cost of \$11.9 million, mainly derived from the effect of accrued interest on outstanding loans during the period.

Net income

As a result of the above, the Company's net income for the 9M18 was \$20.2 million.

Financial position as of September 30, 2018

Total assets

As of September 30, 2018, Urbi's total assets amounted \$5,674.2 million, which represents a decrease of \$362.5 million (-6.0%) compared to December 31, 2017. The variation from one period to another is explained by changes in the following items:

3Q 2018

Cash and cash equivalents

At September 30, 2018 cash and cash equivalents amounted \$10.0 million (including restricted cash of \$2.7 million), representing a decrease of \$84.2 million (-89.4%), mainly due to lower revenues than initially expected and to the investment for the acquisition and development of housing projects with high turnover rates and profitability.

Accounts receivable

At the end of 3Q18, the accounts receivable balance decreased \$205.0 million, mainly due to the recognition of allowances for uncollectible accounts according to the IFRS 9 *Financial Instruments*, effective as of this fiscal year. This IFRS requires the application of a model called "Expected credit loss" for the assessment of the impairment in accounts receivable.

Inventories

At the end of 3Q18 the inventories balance of the Company was \$5,132.4 million, which represented a decrease of \$38.2 million (-0.7%), mainly due to the recognition of cost of sales during the period of \$236.6 million which were almost fully offset by the costs incurred and the acquisition of housing projects throughout the period.

The Company has granted certain of its inventories as collateral for certain liabilities and bank loans, whose book value as of September 30, 2018 amounted to \$868.8 million.

Land reserves

As of September 30, 2018, the Company had land reserves of 3,062 hectares of which a portion of this land will be used in operations related to its business plan.

These land reserves have been fully processed and have all required feasibility studies. In some cases, Urbi has all required permits for the land and the investments in infrastructure and other engineering works related to the land. These land reserves also include housing inventories to be sold as part of its business plan. Some of the Company's land reserves will be used to execute part of its business plan related to housing sales in its own developments, to sell land for urban development, to make payments in kind, and to pledge as collateral for new lines of credit.

Classification of own land reserves:

Hectares

3Q 2018

Total liabilities

Total liabilities of the Company amounted to \$2,542.3 million at September 30, 2018, a decrease of \$163.1 million (-6.0%) compared to December 31, 2017, as explained below:

Bank loans

The Company ended the 3Q18 with \$376.8 million of bank loans, comprised of bridge loans and credits for the conclusion of pending infrastructure. During the nine-month period, Urbi used \$64.5 million, repaid bridge loans and credits for infrastructure by \$32.4 million and paid interests for a total amount of \$10.7 million.

Notes payable

During the nine-month period ended September 30, 2018, the Company entered into a simple revolving loan agreement of \$28.0 million for the construction of homes in the city of Querétaro. The drawdowns made during the period were \$11.0 million. Additionally, it generated interest pending of payment by \$151 thousand.

Non-financial liabilities

At the end of 3Q18, the Company's non-financial liabilities totaled \$2,154.3 million which represents a decrease of \$207.3 million (-8.8%). This was mainly due to the reduction in provisions and the payment of social security obligations for a total of \$219.6 million partially offset by increases in construction suppliers of \$16.1 million.

An analysis of Urbi's non-financial liabilities at the end of 3Q18 is shown below:

(Amounts in thousands of Mexican pesos)

ltem	At September 30, 2018	At December 31, 2017
Construction suppliers	\$49,119	\$33,045
Accounts payable	396,257	399,032
Provisions	1,674,338	1,817,687
Taxes payable	32,255	108,551
Labor obligations	2,295	3,283
Total	\$2,154,264	\$2,361,598

Equity

At September 30, 2018, shareholders' equity was \$3,132.0 million, a decrease of \$199.4 million (-6.0%) due to the profit generated during the period as well as the adoption of IFRS 9 in the book

3Q 2018

value of financial assets, specifically in accounts receivable and interest in joint ventures, which had a direct impact in retained income for a total amount of \$219.4 million.

Sources of capital and liquidity

The Company has traditionally financed its operations by combining resources from its shareholders, bank loans, debt issuance and commercial loans. In recent years, the Company has managed its liquidity through a series of initiatives that have allowed it to reduce its operating costs and expenses, as well as financing transactions and the sale of non-strategic assets.

An analysis of the changes in Urbi's cash and cash equivalents at September 30, 2018 and 2017 is shown below:

(Amounts in thousands of Mexican pesos)

ltem	9M18	9M17
Net cash flow used in operating activities	(\$155,713)	(\$185,279)
Net cash flow from (used in) investing activities	\$39,186	\$53,977
Net cash flow from (used in) financing activities	\$32,363	(\$15,872)
Net decrease in cash and cash equivalents	(\$84,164)	(\$147,174)

Free cash flow

This quarterly report includes disclosures regarding its free cash flow, which is defined as the net cash used in or generated by its operating activities and investing activities, both of which are cash flows associated with Urbi's continuing operations. Urbi's free cash flow as calculated above is available to the Company to pay dividends, to invest, or to pay down debt. Free cash flow should not be viewed as an alternate indicator or a better indicator than any other, but instead should be seen as providing additional information that complements an entity's statement of cash flows and the other equity and performance indicators set out in International Financial Reporting Standards (IFRS).

It should be noted that free cash flow is not addressed under IFRS, but it is nevertheless included in this report because it is an indicator that many investors rely on to measure a company's historical capacity to service its debt and to meet certain capital investment requirements. Considering all the above, readers should be aware that Urbi's free cash flow as reported in this release is not comparable to the free cash flow of other entities.

The table below shows the free cash flow of the Company as of September 30, 2018 and 2017:

3Q 2018

(Amounts in thousands of Mexican pesos)

Item	9M18	9M17
Net cash flow used in operating activities	(\$155,713)	(\$185,279)
Net cash flow from (used in) investing activities	39,186	\$53,977
Free cash flow	(\$116,527)	(\$131,302)
